- Requires a Philips Hue bridge

Limitless possibilities

- Come home to a house filled with light
- Unwind with warm to cool white light
- Decorate for the holidays with light

Easy control and comfort

- Control it your way

Highlights

High-quality

The products are made specifically for outdoor use. We are using the highest quality materials to ensure the best performance in the outdoor conditions as well as smart use of materials to optimize radio frequency.

Weather-proof (IP44)

This Philips Hue outdoor fixture is specially designed for use in outdoor environments and has undergone rigorous tests to ensure its performance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This lamp is designed with IP44: it is protected against water splashed from any direction. This product is most common and ideal for general outdoor use.

Requires a Philips Hue bridge

Connect your Philips Hue lights with the Bridge to control your lights from your smart phone or tablet via the Philips Hue app. Or control your Philips Hue lights with the Philips Hue dimmer indoor switch for on/off and dimming functionalities.

Come home with light

Set your Philips Hue app to recognize when you're nearing home. Before you even step out of your car or walk up the path, your selected smart lights turn on automatically.

Control it your way

Connect your Philips Hue lights with the Bridge and start discovering the endless possibilities. Control your lights from your

smartphone or tablet via the Philips Hue app, or add the indoor switches to your system to change your lights. Set timers, notifications, alarms, and more for the full Philips Hue experience. Philips Hue even works with Amazon Alexa, Apple Homekit and the Google Assistant to allow you to control your lights with your voice.

Warm to cool white light

Extend your evenings with Philips Hue outdoor lighting. Set the right ambiance on your patio, balcony or porch and relax. From the warm white light of a summer sun, to the ice cool daylight of winter: you can enjoy any shade of white light to fit your mood throughout the year.

Decorate with light

Holiday cheer starts here — with smart light! Use your Philips Hue lights to transform your home into a festive experience: bright reds and greens for Christmas, subtle pastels for spring, or even an eerie purple glow to create the most haunted house on the block on Halloween.
